According to the Centers for Disease Control and Prevention, handwashing is the single most important thing we can do to keep from getting sick and spreading illness to others.

**Clean your hands:**

- When preparing food
- Before snacks and meals
- After using the restroom
- After touching animals
- When you or someone around you is ill
- When hands are dirty

Clean Hands  
Save Lives

National Clean Hands Week is sponsored by the Clean Hands Coalition, a unified alliance of public and private partners working together to create and support coordinated, sustained initiatives to significantly improve health and save lives through clean hands.

The Soap and Detergent Association is a proud member of the Clean Hands Coalition and supports National Clean Hands Week 2007. For more information visit [www.cleaning101.com](http://www.cleaning101.com).
